Volume 11867

Proceedings of SPIE 0277-786X, V. 11867

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Technologies for Optical Countermeasures XVIII and High-Power Lasers: Technology and Systems, Platforms, Effects V, edited by D. H. Titterton, R. J. Grasso, M. A. Richardson, W. L. Bohn, H. Ackermann, Proc. of SPIE Vol. 11867, 1186701 • © 2021 SPIE • CCC code: 0277-786X/21/\$21 • doi: 10.1117/12.2614935

Proc. of SPIE Vol. 11867 1186701-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

PANEL DISCUSSION: LASER WEAPONS AND LASERS USED AS WEAPONS AGAINST PERSONNEL

11867 04 **Smoke as protection against high energy laser effects (Keynote Paper)** [11867-1]

LASER EFFECTS

11867 07 **The potential role of laser in combating UAVs: part 2; laser as a countermeasure and weapon (Invited Paper)** [11867-4]

11867 08 **Nanostructured biocompatible Ti-TiN coating for implants with improved functional properties** [11867-5]

11867 09 **Real-time monitoring of wire electro-discharge machining semiconducting composite ceramics TiC+Al₂O₃** [11867-6]

11867 0A **A new method for efficiently controlling energy use in Electrical Discharge Machining (EDM)** [11867-7]

BEAM STEERING, POINTING, AND CONTROL

11867 0D **Aberration and coherence effects with a micromirror array (Invited Paper)** [11867-10]

11867 0E **Outdoor target-in-the-loop coherent beam combination using a stochastic parallel gradient descent algorithm** [11867-11]

LASER AGAINST PERSONNEL

11867 0F **Simulating laser dazzling using augmented and virtual reality** [11867-12]

LASER ARCHITECTURES FOR POWER SCALING

11867 0G **System assessment capability for the laser effector (Invited Paper)** [11867-13]

FIBER LASERS AND BEAM COMBINING

- 11867 OH **Coherent combining of 7 fiber lasers using a multi-plane light converter device (Invited Paper)** [11867-14]
- 11867 OJ **Monolithic freeform optic arrays for low-SWaP laser directed energy effectors** [11867-16]
- 11867 OL **1800 - 2400 nm OPCPA based on BiBO with signal-to-idler conversion by transient stimulated Raman chirped pulse amplification** [11867-18]

DIODE PUMPED ALKALI LASERS (DIPAL)

- 11867 ON **Modeling of K and Rb DPALs (Invited Paper)** [11867-20]

LASER INTERACTION, EFFECTS, AND COMPONENTS

- 11867 OO **Terahertz emission from a single-color laser filament plasma (Invited Paper)** [11867-21]
- 11867 OP **Spectroscopy as diagnostic tool to investigate the HEL-material interaction** [11867-22]

POSTER SESSION: TECHNOLOGIES FOR OPTICAL COUNTERMEASURES

- 11867 OS **Reverse engineering of geometric models of advanced curved edge drills using optical measuring systems** [11867-25]
- 11867 OT **Research on the relationship between photothermal effect and wavelength of laser beam in gastric tumor** [11867-26]
