MIPPR 2013: Multispectral Image Acquisition, Processing, and Analysis,
edited by Xinyu Zhang, Jianguo Liu, Proc. of SPIE Vol. 8917, 891701

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID Number.

Contents

MULTISPECTRAL IMAGE PROCESSING AND ANALYSIS

Conference Committee

Conference Chair

M.V. Srinivasan, University of Queensland (Australia)

Conference Cochair

Deren Li, Wuhan University (China)

Symposium Honorary Chair

Bo Zhang, Tsinghua University (China)

Program Committee Chairs

Bir Bhanu, University of California at Riverside (United States)
Tianxu Zhang, Huazhong University of Science and Technology (China)

Organizing Committee Chair

Jianguo Liu, Huazhong University of Science and Technology (China)

Co-organizing Committee Chairs

Jinxue Wang, SPIE
Zhiguo Cao, Huazhong University of Science and Technology (China)

Organizing Committee Members

Shiqing Peng, Nong Sang, Jun Jiang

General Secretary

Faxiong Zhang, Huazhong University of Science and Technology (China)

Associated General Secretary

Xiaoyang Song, Huazhong University of Science and Technology (China)

Secretaries

Li Cao, Wenbing Song, Wei Wang, Huimeng Liu, Huaidong Zhang, Yi Xiao, Song Luo

Program Committee

Christian Bauckhage, IAIS Fraunhofer (Germany)
Bir Bhanu, The University of California, Riverside (United States)
Zhiguo Cao, Huazhong University of Science and Technology (China)
C. H. Chen, University of Massachusetts, Dartmouth (United States)
Xinjian Chen, Soochow University (China)
Jinkui Chu, Dalian University of Technology (China)
Melba M. Crawford, Purdue University (United States)
Armin B.Cremers, Universität Bonn (Germany)
Mingyue Ding, Huazhong University of Science and Technology (China)
Jufu Feng, Beijing University (China)
Aaron Fenster, The University of Western Ontario (Canada)
Bruce Hirsch, Drexel University (United States)
Xinhan Huang, Huazhong University of Science and Technology (China)
Horace H.S. Ip, City University of Hong Kong (China)
James F. Greenleaf, Mayo Clinic (United States)
Jun Jo, Griffith University (Australia)
Lihua Li, Hangzhou Dianzi University (China)
Deren Li, Wuhan University (China)
Xuelong Li, University of London (United Kingdom)
Qiang Li, University of Chicago (United States)
Stan Z. Li, Chinese Academy of Sciences (China)
Jianguo Liu, Huazhong University of Science and Technology (China)
Qinghuo Liu, Institute of Automation (China)
Hanqing Lu, Institute of Automation (China)
Henri Maître, École Nationale Supérieure des Télécommunications (France)
Laszlo Nyul, University of Szeged (Hungary)
Jonathan Roberts, Autonomous Systems Laboratory CSIRO ICT Centre (Australia)
Punam K. Saha, University of Iowa (United States)
Nong Sang, Huazhong University of Science and Technology (China)
Xubang Shen, Chinese Academy of Sciences (China)
Enmin Song, Huazhong University of Science and Technology (China)
M.V. Srinivasan, University of Queensland (Australia)
Hong Sun, Wuhan University (China)
Hengqing Tong, Wuhan University of Technology (China)
J.K.Udupa, University of Pennsylvania (United States)
Jinxue Wang, SPIE (United States)
Yuan Yuan, Aston University (United Kingdom)
Tianxu Zhang, Huazhong University of Science and Technology (China)
Xiaoming Zhang, Mayo Clinic (United States)
Kaichun Zhao, Tsinghua University (China)
Sheng Zheng, China Three Gorges University (China)
Jie Zhou, Tsinghua University (China)

Introduction

Welcome to the Eighth Symposium on Multispectral Image Processing and Pattern Recognition (MIPPR) in the city of Wuhan, China.

The MIPPR symposium has a broad charter. Multispectral is interpreted not just multiple-wavelength in a narrow sense, but also multi-sensor, multi-modal and multimedia. 'Multispectral' covers many disciplines such as sensing, image processing, computer vision, pattern recognition, and involves the development of efficient processing algorithms and their optimization and implementation. The wide range of applications considered in this symposium includes automatic target recognition, autonomous navigation, medical image processing, remote sensing, geographic information systems, biometrics, and many others.

The MIPPR symposium provided a forum for scientists and engineers from universities and government laboratories to meet and exchange ideas. We expect that there were ample discussions both inside and outside the lecture halls, and that MIPPR 2013 was viewed as an exciting meeting.

In response to the Call for Papers, we received 399 submissions. Based on the reviews provided by an excellent program committee we accepted 226 papers covering many aspects of multispectral image processing and pattern recognition. The proceedings of the MIPPR symposium consists of 5 volumes:

- Multispectral Image Acquisition, Processing and Analysis (SPIE Volume 8917)
- Automatic Target Recognition and Navigation (SPIE Volume 8918)
- Pattern Recognition and Computer Vision (SPIE Volume 8919)
- Parallel Processing of Images and Optimization and Medical Imaging Processing (SPIE Volume 8920)
- Remote Sensing Image Processing, Geographic Information Systems, and Other Applications (SPIE Volume 8921)

The realization of a conference depends upon the hard work of many dedicated people. We thank all the members of the organizing committee for putting together this Symposium for the benefit of all the researchers, and for making this conference a success. We hope the papers and the research results presented at MIPPR 2013 will inspire new research in all the areas related to multispectral image processing and pattern recognition.

Bir Bhanu
