

# ***Video Surveillance and Transportation Imaging Applications 2015***

**Robert P. Loce**  
**Eli Saber**  
*Editors*

**10–12 February 2015**  
**San Francisco, California, United States**

*Sponsored by*  
IS&T—The Society for Imaging Science and Technology  
SPIE

*Published by*  
SPIE

**Volume 9407**

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publishers are not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

The CCC fee code is 0277-786X/15/\$18.00.

Printed in the United States of America.

**Paper Numbering:** Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print. Papers are published as they are submitted and meet publication criteria. A unique citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages.

# Contents

vii	<i>Authors</i>
ix	<i>Conference Committee</i>

---

## **SESSION 1    TRANSPORTATION IMAGING I**

---

- 9407 02    **Road user tracker based on robust regression with GNC and preconditioning** [9407-1]
- 9407 04    **Vehicle speed estimation using a monocular camera** [9407-3]
- 9407 05    **Detecting and extracting identifiable information from vehicles in videos** [9407-4]
- 9407 07    **Efficient integration of spectral features for vehicle tracking utilizing an adaptive sensor**  
[9407-6]

---

## **SESSION 2    TRANSPORTATION IMAGING II**

---

- 9407 08    **Detection and recognition of road markings in panoramic images** [9407-7]
- 9407 09    **Topview stereo: combining vehicle-mounted wide-angle cameras to a distance sensor array** [9407-8]
- 9407 0A    **A machine learning approach for detecting cell phone usage** [9407-9]
- 9407 0B    **Driver alertness detection using Google Glasses** [9407-10]

---

## **SESSION 3    TRANSPORTATION IMAGING APPLICATIONS FOR PEDESTRIAN DETECTION AND AUTOMOTIVE SAFETY**

---

- 9407 0C    **Close to real-time robust pedestrian detection and tracking** [9407-11]
- 9407 0D    **Development of a portable bicycle/pedestrian monitoring system for safety enhancement**  
[9407-12]
- 9407 0F    **Active gated imaging for automotive safety applications** [9407-14]

---

## **SESSION 4    SURVEILLANCE IMAGING I**

---

- 9407 0G    **Arbitrary object localization and tracking via multiple-camera surveillance system embedded in a parking garage** [9407-15]

- 9407 OH **Unsupervised classification and visual representation of situations in surveillance videos using slow feature analysis for situation retrieval applications** [9407-16]
- 9407 OI **An intelligent crowdsourcing system for forensic analysis of surveillance video** [9407-17]
- 9407 OK **Hierarchical video surveillance architecture: a chassis for video big data analytics and exploration** [9407-19]

---

**SESSION 5 SURVEILLANCE IMAGING II**

---

- 9407 OM **Gender classification in low-resolution surveillance video: in-depth comparison of random forests and SVMs** [9407-20]
- 9407 ON **Detection and handling of occlusion in an object detection system** [9407-21]
- 9407 OO **Spatio-temporal action localization for human action recognition in large dataset** [9407-22]
- 9407 OP **Person identification from streaming surveillance video using mid-level features from joint action-pose distribution** [9407-23]
- 9407 OQ **Scene projection by non-linear transforms to a geo-referenced map for situational awareness** [9407-24]

---

**SESSION 6 SURVEILLANCE IMAGING APPLICATIONS**

---

- 9407 OR **A vision-based approach for tramway rail extraction** [9407-25]
- 9407 OS **Exploration towards the modeling of gable-roofed buildings using a combination of aerial and street-level imagery** [9407-26]
- 9407 OT **On improving IED object detection by exploiting scene geometry using stereo processing** [9407-27]
- 9407 OU **Visual analysis of trash bin processing on garbage trucks in low resolution video** [9407-28]

---

**SESSION 7 INTERACTION MODELS, SURVEILLANCE SYSTEMS, AND COLORIZATION APPLICATIONS**

---

- 9407 OV **Toward creation of interaction models: simple objects-interaction approach** [9407-29]
- 9407 OW **Compressive sensing based video object compression schemes for surveillance systems** [9407-30]
- 9407 OX **Improved colorization for night vision system based on image splitting** [9407-31]
- 9407 OY **Evaluation of maritime object detection methods for full motion video applications using the PASCAL VOC Challenge framework** [9407-32]

**INTERACTIVE PAPER SESSION**

---

- 9407 0Z **Person re-identification in UAV videos using relevance feedback** [9407-33]
- 9407 10 **Aerial surveillance based on hierarchical object classification for ground target detection** [9407-34]
- 9407 11 **A novel synchronous multi-intensity IR illuminator hardware implementation for nighttime surveillance** [9407-35]

## Authors

Numbers in the index correspond to the last two digits of the six-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first four digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

# Conference Committee

## *Symposium Chair*

**Sheila S. Hemami**, Northeastern University (United States)

## *Symposium Co-chair*

**Choon-Woo Kim**, Inha University (Korea, Republic of)

## *Conference Chairs*

**Robert P. Loe**, PARC, A Xerox Company (United States)

**Eli Saber**, Rochester Institute of Technology (United States)

## *Conference Program Committee*

**Ghassan Al-Regib**, Georgia Institute of Technology (United States)

**Vijayan K. Asari**, University of Dayton (United States)

**Raja Bala**, PARC, A Xerox Company (United States)

**Farhan A. Baqai**, Apple Inc. (United States)

**Elisa H. Barney Smith**, Boise State University (United States)

**Alessandro Bevilacqua**, Università degli Studi di Bologna (Italy)

**Philip M. Birch**, University of Sussex (United Kingdom)

**Alberto Broggi**, Università degli Studi di Parma (Italy)

**Yang Cai**, Carnegie Mellon University (United States)

**Peter H. N. de With**, Technische Universiteit Eindhoven (Netherlands)

**Sohail A. Dianat**, Rochester Institute of Technology (United States)

**Hassan Foroosh**, University of Central Florida (United States)

**Prudhvi Gurram**, U.S. Army Research Laboratory (United States)

**Mustafa I. Jaber**, NantVision Inc. (United States)

**Bo Ling**, Migma Systems, Inc. (United States)

**Fa-Long Luo**, Element CXI, Inc. (United States)

**Sharathchandra Pankanti**, IBM Thomas J. Watson Research Center  
(United States)

**Peter Paul**, PARC, A Xerox Company (United States)

**Andreas E. Savakis**, Rochester Institute of Technology (United States)

**Dan Schonfeld**, University of Illinois at Chicago (United States)

**Oliver Sidla**, SLR Engineering GmbH (Austria)

**Sreenath Rao Vantaram**, Intel Corporation (United States)

**Yaowu Xu**, Google (United States)

*Session Chairs*

- 1 Transportation Imaging I  
**Robert P. Loce**, PARC, A Xerox Company (United States)  
**Eli Saber**, Rochester Institute of Technology (United States)
- 2 Transportation Imaging II  
**Andreas E. Savakis**, Rochester Institute of Technology (United States)
- 3 Transportation Imaging Applications for Pedestrian Detection and Automotive Safety  
**Vijayan K. Asari**, University of Dayton (United States)
- 4 Surveillance Imaging I  
**Oliver Sidla**, SLR Engineering GmbH (Austria)
- 5 Surveillance Imaging II  
**Ghassan Al-Regib**, Georgia Institute of Technology (United States)
- 6 Surveillance Imaging Applications  
**Eli Saber**, Rochester Institute of Technology (United States)
- 7 Interaction Models, Surveillance Systems, and Colorization Applications  
**Robert P. Loce**, PARC, A Xerox Company (United States)
