

PROCEEDINGS OF SPIE

Advances in Slow and Fast Light III

Selim M. Shahriar
Philip R. Hemmer
Editors

25–26 January 2010
San Francisco, California, United States

Sponsored and Published by
SPIE

Volume 7612

Proceedings of SPIE, 0277-786X, v. 7612

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *Advances in Slow and Fast Light III*, edited by Selim M. Shahriar, Philip R. Hemmer, Proceedings of SPIE Vol. 7612 (SPIE, Bellingham, WA, 2010) Article CID Number.

ISSN 0277-786X

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/10/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

Contents

vii *Conference Committee*

SLOW LIGHT IN OPTICAL FIBERS

- 7612 02 **EIT-based slow and fast light in an all-fiber system (Invited Paper)** [7612-01]
N. V. Wheeler, P. S. Light, F. Couny, F. Benabid, Univ. of Bath (United Kingdom)
- 7612 03 **Analysis of an all-optical SBS avalanche detector (Invited Paper)** [7612-02]
D. Walker, M. Steiner, U.S. Naval Research Lab. (United States); A. Gulian, Global Strategies Group, Inc. (United States)
- 7612 07 **Spatial and temporal evolution of transient stimulated-Brillouin-scattering slow-light pulse in an optical fiber** [7612-06]
L. Ren, Y. Yang, W. Zhao, Xi'an Institute of Optics and Precision Mechanics (China);
Y. Tomita, Univ. of Electro-Communications (Japan)

SLOW LIGHT IN ATOMIC VAPOR AND CAVITY QED

- 7612 09 **Conversion of phase noise to intensity noise in electromagnetically induced transparency (Invited Paper)** [7612-08]
Y. Xiao, Fudan Univ. (China); M. Baryakhtar, Harvard Univ. (United States); D. F. Phillips, Harvard-Smithsonian Ctr. for Astrophysics (United States); R. L. Walsworth, Harvard Univ. (United States) and Harvard-Smithsonian Ctr. for Astrophysics (United States)
- 7612 0A **Slow light in cesium vapor: pulse delay measurements and predicted delay** [7612-10]
M. D. Anderson, G. P. Perram, Air Force Institute of Technology (United States)

APPLICATION OF SLOW AND FAST LIGHT I

- 7612 0B **Coupled resonator gyroscopes: what works and what does not (Invited Paper)** [7612-11]
M. A. Terrel, M. J. F. Digonnet, S. Fan, Stanford Univ. (United States)
- 7612 0C **Symmetry induced modal dispersion in CROs (Invited Paper)** [7612-12]
J. Scheuer, Tel-Aviv Univ. (Israel)
- 7612 0D **Prospect for development of a pulsed CPT Raman Ramsey clock using atomic vapor (Invited Paper)** [7612-13]
G. S. Pati, Delaware State Univ. (United States); F. K. Fatemi, M. Bashkansky, U.S. Naval Research Lab. (United States); S. Shahriar, Northwestern Univ. (United States)

THEORETICAL ISSUES IN SLOW AND FAST LIGHT

- 7612 OK **Non-linear interactions in electromagnetically induced transparency and related pump-probe optical phenomena in moving atomic systems (Invited Paper)** [7612-20]
V. L. Jacobs, U.S. Naval Research Lab. (United States)

SLOW LIGHT IN PHOTONIC CRYSTALS AND WAVEGUIDES

- 7612 OL **Understanding the rich physics of light propagation in slow photonic crystal waveguides (Invited Paper)** [7612-21]
T. F. Krauss, L. O'Faolain, S. Schulz, D. M. Beggs, Univ. of St. Andrews (United Kingdom); F. Morichetti, POLICOM, DEI Politecnico di Milano (Italy) and Fondazione Politecnico di Milano (Italy); A. Canciamilla, M. Torregiani, A. Melloni, Fondazione Politecnico di Milano (Italy); S. Mazoyer, P. Lalanne, Lab. Charles Fabry de l'Institut d'Optique, CNRS, Univ. Paris-Sud (France); A. Samarelli, M. Sorel, R. De La Rue, Univ. of Glasgow (United Kingdom)
- 7612 OM **Coupled cavities and band-edge slow-light effects in periodic waveguides (Invited Paper)** [7612-22]
A. A. Sukhorukov, S. Ha, The Australian National Univ. (Australia); A. V. Lavrinenko, Technical Univ. of Denmark (Denmark) and The Australian National Univ. (Australia); Y. S. Kivshar, The Australian National Univ. (Australia)
- 7612 OO **Fast optical correlator via thermal delay tuning in photonic crystal coupled waveguide** [7612-24]
N. Ishikura, J. Adachi, T. Baba, Yokohama National Univ. (Japan) and CREST, Japan Science and Technology Agency (Japan)

SLOW LIGHT IN MICRORESONATORS AND SEMICONDUCTOR STRUCTURES

- 7612 OP **Storing light with microresonator arrays or active microresonator chains (Invited Paper)** [7612-25]
Y. Dumeige, S. Trebaol, P. Féron, ENSSAT-FOTON, CNRS, Univ. de Rennes 1 (France)
- 7612 OQ **Tuning of microring resonators (Invited Paper)** [7612-26]
G. Gupta, M. L. Cooper, J. S. Park, M. A. Schneider, Univ. of California, San Diego (United States); W. H. Steier, The Univ. of Southern California (United States); S. Mookherjea, Univ. of California, San Diego (United States)
- 7612 OS **Nonlinear distortion and spurious-free dynamic range of a tunable delay line based on slow light in SOA** [7612-28]
P. Berger, J. Bourderionnet, Thales Research & Technology (France); M. Alouini, Thales Research & Technology (France) and Institut de Physique de Rennes, CNRS (France); F. Bretenaker, Lab. Aimé Cotton, CNRS, Univ. Paris Sud 11 (France); D. Dolfi, Thales Research & Technology (France)

SLOW LIGHT IN METAMATERIALS AND OTHER COMPLEX MEDIA

7612 0U **Recent developments in the study of slow light in complex photonic materials (Invited Paper)** [7612-30]
K. L. Tsakmakidis, E. I. Kirby, O. Hess, Univ. of Surrey (United Kingdom)

Author Index

Conference Committee

Symposium Chair

E. Fred Schubert, Rensselaer Polytechnic Institute (United States)

Symposium Cochairs

Liang-Chy Chien, Kent State University (United States)

James G. Grote, Air Force Research Laboratory (United States)

Program Track Chair

Zameer U. Hasan, Temple University (United States)

Conference Chairs

Selim M. Shahriar, Northwestern University (United States)

Philip R. Hemmer, Texas A&M University (United States)

Program Committee

Raymond G. Beausoleil, Hewlett-Packard Laboratories (United States)

Alan E. Craig, Montana State University (United States)

Shanhui Fan, Stanford University (United States)

Daniel J. Gauthier, Duke University (United States)

Kohzo Hakuta, The University of Electro-Communications (Japan)

Ortwin Hess, University of Surrey (United Kingdom)

John C. Howell, University of Rochester (United States)

Jacob B. Khurgin, The Johns Hopkins University (United States)

Jacob Scheuer, Tel Aviv University (Israel)

Holger Schmidt, University of California, Santa Cruz (United States)

M. Suhail Zubairy, Texas A&M University (United States)

Session Chairs

- 1 Slow Light in Optical Fibers
Jacob Scheuer, Tel Aviv University (Israel)
- 2 Slow Light in Atomic Vapor and Cavity QED
Gour Shyam Pati, Northwestern University (United States)
- 3 Application of Slow and Fast Light I
Jacob B. Khurgin, The Johns Hopkins University (United States)

- 4 Application of Slow and Fast Light II
Thomas F. Krauss, University of St. Andrews (United Kingdom)
- 5 Theoretical Issues in Slow and Fast Light
Thomas F. Krauss, University of St. Andrews (United Kingdom)
- 6 Slow Light in Photonic Crystals and Waveguides
Robert W. Boyd, University of Rochester (United States)
- 7 Slow Light in Microresonators and Semiconductor Structures
Uriel Levy, The Hebrew University of Jerusalem (Israel)
- 8 Slow Light in Metamaterials and Other Complex Media
Uriel Levy, The Hebrew University of Jerusalem (Israel)
Aleksander K. Rebane, Montana State University (United States)
- 9 Slow Light for Quantum Optics, Microwave Photonics and Other Topics
Kohzo Hakuta, The University of Electro-Communications (Japan)
Ortwin Hess, University of Surrey (United Kingdom)
