

PROCEEDINGS OF SPIE

Laser Radar Technology and Applications XVII

Monte D. Turner
Gary W. Kamerman
Editors

24–26 April 2012
Baltimore, Maryland, United States

Sponsored and Published by
SPIE

Volume 8379

Proceedings of SPIE, 0277-786X, v. 8379

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Laser Radar Technology and Applications XVII, edited by Monte D. Turner, Gary W. Kamerman,
Proc. of SPIE Vol. 8379, 837901 · © 2012 SPIE · CCC code: 0277-786X/12/\$18 · doi: 10.1117/12.979458

Proc. of SPIE Vol. 8379 837901-1

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *Laser Radar Technology and Applications XVII*, edited by Monte D. Turner, Gary W. Kameron, Proceedings of SPIE Vol. 8379 (SPIE, Bellingham, WA, 2012) Article CID Number.

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/12/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

The logo for SPIE Digital Library features the word "SPIE" in a bold, sans-serif font above the words "Digital Library" in a smaller, sans-serif font. To the right of the text is a stylized graphic consisting of three vertical bars of increasing height from left to right, with a curved line above them.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

Contents

vii *Conference Committee*

SESSION 1 3D FLASH LIDAR

- 8379 02 **Three-dimensional imaging with 1.06 μ m Geiger-mode lidar camera** [8379-01]
P. Yuan, R. Sudharsanan, X. Bai, P. McDonald, E. Labios, Spectrolab, Inc. (United States);
B. Morris, J. P. Nicholson, G. M. Stuart, H. Danny, Boeing-SVS, Inc. (United States);
S. Van Duyn, G. Pauls, S. Gaalema, Black Forest Engineering LLC (United States)
- 8379 03 **Low-cost compact MEMS scanning lidar system for robotic applications** [8379-02]
R. Moss, P. Yuan, X. Bai, E. Quesada, R. Sudharsanan, Spectrolab, Inc. (United States);
B. L. Stann, J. F. Dammann, M. M. Giza, W. B. Lawler, U.S. Army Research Lab. (United States)
- 8379 04 **Pulsed 3D laser sensor with scanless receiver** [8379-03]
H. Tsuji, M. Takabayashi, M. Imaki, N. Kotake, A. Hirai, S. Kameyama, Y. Hirano, Mitsubishi
Electric Corp. (Japan)
- 8379 05 **Flash lidar performance testing: configuration and results** [8379-04]
I. Poberezhskiy, A. Johnson, D. Chang, E. Ek, D. Natzic, G. Spiers, Jet Propulsion Lab. (United
States); S. Penniman, B. Short, Advanced Scientific Concepts, Inc. (United States)

SESSION 2 3D DATA EXPLOITATION I

- 8379 06 **Detecting trails in lidar point cloud data** [8379-06]
A. M. Kim, R. C. Olsen, Naval Postgraduate School (United States)

SESSION 3 3D DATA EXPLOITATION II

- 8379 07 **Line-of-sight measurement in large urban areas using voxelized lidar** [8379-07]
S. Hagstrom, D. Messinger, Rochester Institute of Technology (United States)
- 8379 08 **Real-time 3D change detection of IEDs** [8379-08]
M. Wathen, U. S. Army Research Labs (United States); N. Link, CAE Inc. (Canada); P. Iles,
Neptec Design Group Ltd. (Canada); J. Jinkerson, CAE USA Inc. (United States); P. Mrstik,
K. Kusevic, GeoDigital International Inc. (Canada); D. Kovats, CAE Inc. (Canada)
- 8379 09 **A new method of 3D reconstruction using the point cloud and distance images of laser
radar** [8379-09]
J. Lan, J. Li, L. Zheng, Y. Wu, X. Li, Univ. of Science and Technology Beijing (China)
- 8379 0A **Landing zone determination using video rate point cloud data** [8379-10]
C. Rodgers, J. Méndez, ITT-Exelis Inc. (United States)
- 8379 0B **Foliage penetration by using 4-D point cloud data** [8379-11]
J. Méndez Rodríguez, P. J. Sánchez-Reyes, S. M. Cruz-Rivera, ITT Exelis Inc. (United States)

- 8379 0C **Geometric-model-free tracking of extended targets using 3D lidar measurements** [8379-12]
P. Steinemann, J. Klappstein, J. Dickmann, Daimler AG (Germany); F. von Hundelshausen, H.-J. Wünsche, Univ. der Bundeswehr München (Germany)
- 8379 0D **Applications of 3D occupancy grids in a target analysis context** [8379-13]
G. Tolt, T. Chevalier, P. Engström, Swedish Defence Research Agency (Sweden);
C. Grönwall, Swedish Defence Research Agency (Sweden) and Linköping Univ. (Sweden)
- 8379 0E **A LADAR bare earth extraction technique for diverse topography and complex scenes** [8379-14]
A. L. Neuenschwander, T. H. Stevenson, L. A. Magruder, The Univ. of Texas at Austin (United States)

SESSION 4 ATMOSPHERIC MEASUREMENTS

- 8379 0F **Ladar imaging analytical approach using both outward and return path atmospheric turbulence phase-screens** [8379-15]
D. G. Youmans, SPARTA Inc. (United States)
- 8379 0G **Lidar based particulate flux measurements of agricultural field operations** [8379-16]
M. D. Wojcik, Space Dynamics Lab. (United States); R. S. Martin, Utah State Univ. (United States); K. Moore, Space Dynamics Lab. (United States); J. L. Hatfield, J. H. Prueger, National Soil Tilth Lab., USDA (United States)
- 8379 0H **Ground and airborne methane measurements with an optical parametric amplifier** [8379-17]
K. Numata, Univ. of Maryland, College Park (United States) and NASA Goddard Space Flight Ctr. (United States); H. Riris, S. Li, S. Wu, S. R. Kawa, M. Dawsey, NASA Goddard Space Flight Ctr. (United States); A. Ramanathan, Oak Ridge Associated Universities (United States) and NASA Goddard Space Flight Ctr. (United States); J. Mao, M. Krainak, J. Abshire, NASA Goddard Space Flight Ctr. (United States)
- 8379 0I **Measurement of atmospheric formaldehyde profiles with a laser-induced fluorescence lidar** [8379-18]
G. Li, MassTech Inc. (United States); J. Lei, C. Prasad, Science and Engineering Services, Inc. (United States)
- 8379 0J **Time-resolved remote Raman and fluorescence spectrometers for planetary exploration** [8379-19]
S. K. Sharma, A. K. Misra, T. E. Acosta, P. G. Lucey, Univ. of Hawai'i (United States)
- 8379 0K **Simulation framework to estimate the performance of CO₂ and O₂ sensing from space and airborne platforms for the ASCENDS mission requirements analysis** [8379-20]
D. Pliutau, N. S. Prasad, NASA Langley Research Ctr. (United States)
- 8379 0L **Airborne Doppler wind lidar data fusion with a diagnostic wind model** [8379-21]
Y. Wang, C. Williamson, G. Huynh, U.S. Army Research Lab. (United States); D. Emmitt, S. Greco, Simpson Weather Associates, Inc. (United States)
- 8379 0M **Airborne wind profiling with the data acquisition and processing system for a pulsed 2-micron coherent doppler lidar system** [8379-22]
J. Y. Beyon, G. J. Koch, M. J. Kavaya, NASA Langley Research Ctr. (United States)

- 8379 0N **Noise whitening in airborne wind profiling with a pulsed 2-micron coherent doppler lidar at NASA Langley Research Center** [8379-23]
J. Y. Beyon, NASA Langley Research Ctr. (United States); G. E. Arthur, Harding Univ. (United States); G. J. Koch, M. J. Kavaya, NASA Langley Research Ctr. (United States)

SESSION 5 MODELING AND SIMULATION

- 8379 0O **Ladar performance simulations using a hyperspectral atmospheric transmittance and radiance model: LEEDR** [8379-24]
B. D. Roth, S. T. Fiorino, Air Force Institute of Technology (United States)

SESSION 6 SIGNAL AND DATA PROCESSING

- 8379 0Q **Noise filtering techniques for photon-counting ladar data** [8379-26]
L. A. Magruder, M. E. Wharton III, K. D. Stout, A. L. Neuenschwander, The Univ. of Texas at Austin (United States)
- 8379 0R **A novel range ambiguity resolution technique applying pulse-position modulation in time-of-flight ranging applications** [8379-27]
P. Rieger, A. Ullrich, RIEGL Laser Measurement Systems GmbH (Austria)
- 8379 0S **A calibration-and-error correction method for improved texel (fused ladar/digital camera) images** [8379-28]
S. E. Budge, Utah State Univ. (United States)

SESSION 7 NOVEL SYSTEMS

- 8379 0V **A wide angle bistatic scanning lidar for navigation** [8379-31]
X. Zhu, A. DesLauriers, C. Bell, L. Gagnon, M. Guibert, E. Simard, Neptec Design Group Ltd. (Canada); S. Gemme, L. Ilinca-Ignat, Canadian Space Agency (Canada)
- 8379 0W **Slant path range gated imaging of static and moving targets** [8379-32]
O. Steinvall, M. Elmqvist, K. Karlsson, O. Gustafsson, T. Chevalier, Swedish Defence Research Agency (Sweden)
- 8379 0X **Improvement of highly sensitive lidar with a thumb-sized sensor-head built using an optical fiber preamplifier** [8379-33]
D. Inoue, T. Ichikawa, H. Matsubara, X. Mao, M. Maeda, C. Nagashima, M. Kagami, Toyota Central R&D Labs., Inc. (Japan)
- 8379 0Y **Compact high-speed scanning lidar system** [8379-34]
C. Dickinson, MacDonald, Dettwiler and Associates Ltd. (Canada); M. Hussein, J. Tripp, Optech, Inc. (Canada); M. Nimelman, MacDonald, Dettwiler and Associates Ltd. (Canada); A. Koujelev, Canadian Space Agency (Canada)
- 8379 0Z **Advanced compact 3D lidar using a high speed fiber coupled pulsed laser diode and a high accuracy timing discrimination readout circuit** [8379-35]
M. Lee, S. Baeg, Korea Institute of Industrial Technology (Korea, Republic of)

SESSION 8 COMPONENT TECHNOLOGIES

- 8379 10 **Development of a ROIC for lidar on planetary lander by CMOS technology** [8379-36]
T. Mizuno, H. Ikeda, K. Kawahara, Institute of Space and Astronautical Science (Japan)
- 8379 12 **Laser sources for lidar applications** [8379-38]
J. Kilmer, A. Iadevaia, Y. Yin, Photonics Industries International, Inc. (United States)

SESSION 9 MARITIME APPLICATIONS

- 8379 13 **The impact of sea state condition on airborne lidar bathymetry measurements** [8379-40]
T. Karlsson, Airborne Hydrography AB (Sweden) and Lund Univ. (Sweden); S. Pe'eri, Univ. of New Hampshire (United States); A. Axelsson, Airborne Hydrography AB (Sweden)
- 8379 14 **Feasibility study for airborne fluorescence/reflectivity lidar bathymetry** [8379-39]
O. Steinvall, Swedish Defence Research Agency (Sweden); H. Kautsky, Stockholm Univ. (Sweden); M. Tulldahl, Swedish Defence Research Agency (Sweden); E. Wollner, Bombardier Transportation (Sweden)

POSTER SESSION

- 8379 16 **Ultraviolet scanning Raman lidar with fast telescope for measurements of water vapor and aerosols in lower atmosphere** [8379-42]
F. Gao, Univ. of Nova Gorica (Slovenia) and Xi'an Univ. of Technology (China); S. Stanič, T.-Y. He, Univ. of Nova Gorica (Slovenia); D.-X. Hua, Xi'an Univ. of Technology (China)
- 8379 17 **Performance improvement of real-time 3D imaging lidar based on a modified array receiver** [8379-43]
N. Kotake, A. Hirai, S. Kameyama, M. Imaki, H. Tsuji, M. Takabayashi, Y. Sasahata, Y. Hirano, Mitsubishi Electric Corp. (Japan)
- 8379 1A **A modified lidar system with a Geiger mode APD to remove a dead time problem** [8379-46]
S. E. Jo, H. J. Kong, T. H. Kim, KAIST (Korea, Republic of); J. Jin, J. W. Kim, Korea Research Institute of Standards and Science (Korea, Republic of) and Univ. of Science and Technology (Korea, Republic of); J.-A. Kim, KAIST (Korea, Republic of)
- 8379 1B **Improvement of SNR by temporal filtering method in lidar system using two Geiger-mode avalanche photodiodes** [8379-47]
T. H. Kim, H. J. Kong, S. E. Jo, KAIST (Korea, Republic of)

Author Index

Conference Committee

Symposium Chair

Kevin P. Meiners, Office of the Secretary of Defense (United States)

Symposium Cochair

Kenneth R. Israel, Lockheed Martin Corporation (United States)

Conference Chairs

Monte D. Turner, Air Force Research Laboratory (United States)

Gary W. Kamerman, FastMetrix, Inc. (United States)

Program Committee

Philip Gatt, Lockheed Martin Coherent Technologies (United States)

Richard M. Heinrichs, Defense Advanced Research Projects Agency
(United States)

Robert T. Hintz, Naval Air Warfare Center Weapons Division (United
States)

Norman Lopez, FastMetrix, Inc. (United States)

Vasyl Molebny, National Taras Shevchenko University of Kyiv (Ukraine)

Russell Philbrick, North Carolina State University (United States)

Upendra N. Singh, NASA Langley Research Center (United States)

Ove Steinvall, Swedish Defence Research Agency (Sweden)

Session Chairs

- 1 3D Flash Lidar
Monte D. Turner, Air Force Research Laboratory (United States)
- 2 3D Data Exploitation I
Gary W. Kamerman, FastMetrix, Inc. (United States)
- 3 3D Data Exploitation II
Gary W. Kamerman, FastMetrix, Inc. (United States)
- 4 Atmospheric Measurements
Philip Gatt, Lockheed Martin Coherent Technologies (United States)
- 5 Modeling and Simulation
Upendra N. Singh, NASA Langley Research Center (United States)

- 6 Signal and Data Processing
Ove Steinvall, Swedish Defence Research Agency (Sweden)
- 7 Novel Systems
Vasyl Molebny, National Taras Shevchenko University of Kyiv (Ukraine)
- 8 Component Technologies
Gary W. Kamerman, FastMetrix, Inc. (United States)
- 9 Maritime Applications
Monte D. Turner, Air Force Research Laboratory (United States)
