This article [*Opt. Eng.* **53**(5), 051405 (2014)] was originally published on 6 December 2013 with an error in Eqs. (1) and (9). The refractive index n should be in the denominator rather than the numerator in the first term on the right hand side of these equations. The corrected equations are printed below:

$$S(z) = \frac{EAO(z)T_oT_s^2\eta v}{2n(nH+z)^2} \beta(\pi, z) \exp \left[-2 \int_0^z \alpha(z') dz' \right] + S_B, \quad (1)$$

$$S_C(z) = \frac{EAO(z)T_oT_s^2\eta v}{2n(nH+z)^2} f_C(\pi, z) \beta(\pi, z) \exp \left[-2 \int_0^z \alpha(z') dz' \right]$$

$$S_X(z) = \frac{EAO(z)T_oT_s^2\eta v}{2n(nH+z)^2} \left[f_X(\pi, z) \beta(\pi, z) + 2 \int_0^z \gamma(z') dz' f_C \beta(\pi, z) \right] \exp \left[-2 \int_0^z \alpha(z') dz' \right]. \quad (9)$$

The paper was corrected online on 11 July 2017.
